Case #JEBCA2015355025

January 10, 2016

Dear Medicare Benefit Protection Team,

This is in response to your letter dated 12/30/2015. Olive View Medical didn't bill me inappropriately, they didn't bill me at all, I believe it was Medicare that paid the bill.

This happened in the year 2008, in June of last year, 2015 I got the full psych report/medical report, the report from 2008 that I originally received only had 40 pages and I received the full report of 120 pages, so I was informing the Inspector General of what they did or doing my due diligence. On the report I recieved in 2015, it had all the drugs they wrote that I was given, only I never took those drugs, they billed Medicare for all these drugs that I never took in addition to I never gave consent. On the 3rd or 4th day my civil rights were violated, my life was threatened, either I took the drugs the nurse had (which was about 2 pills) or I would never be allowed to leave, ever. So that one time I took psych drugs. I never gave consent for psych drugs. I don't do psych drugs. My mother brought me into Olive View for insomnia instead of treating my insomnia I was admitted to the psych ward, labeled a 5150 and admitted. The reason I was labeled a 5150 was because there was a prior 5150 from 1998, it's on the full psych/medical report that I obtained in 2015. Basically they labeled me crazy and violated my civil rights, forced me to take psych drugs by threatening my life. I was also employed, they wrote down that I was unemployed. I have taxes to prove my employment. I believe their lies on the psych report is against the law, the intent was to defraud Medicare to the tune of $8100.00. I had insomnia, they could have treated that but instead they took my insomnia and turned it into a 5150 and had Medicare pay for it.

Now in 1998, the police took me into Olive View Hospital on a 5150, I was just coming out of a state of unconsciousness and was not fully awake, instead of helping me, nobody talked to me at the hospital when I was brought in, the police

knew as my neighbors called the police I was screaming for help, the people in my home wouldn't allow me to leave and were holding me hostage, when the police arrived I was unconscious and they let the people that were holding me hostage walk out the door. When I got to Olive View, I was in the back seat of the cop car, a woman wanted me to give consent for admission and I refused at that point the police or the doctors/nurses should have talked to me but instead I got finger printed and while in the XRay department somebody injected me from behind with psych drugs and overdosed me, any more and I would have died from the drugs, drugs I never consented to, my civil rights were violated in 1998. I woke up the next day in the psych ward wondering how I got there, I was also in alot of pain in my vaginal area, from the full psych/medical report that I received for 1998 in 2015 there was an additional 80 pages I never received in 1998, I was able to piece together 17 years later what happened to me and I was raped by Olive View Staff and the LAPD, the LAPD refused to give me a police report even though I paid for it and verbally and emotionally abused me when I went to follow up on it. They reinforced all the trauma and pain of what happened to me, I went from one sexual abuse incident to another, back to back. The people that held me hostage in my home video taped me naked, that's all I know, I have no idea if I was raped by them as I was unconscious. I'm in the process of going to Federal Civl Court against Olive View Medical, LAPD and the Church of Scientology. I was a member in good standing with the Church of Scientology when this happened and it was all Scientologists that held me hostage in my home and video taped me naked without my consent nor permission, they too violated my civil rights.

Whether you want to pursue the Medicare Fraud of 2008 is up to you, I'm just doing my due diligence, I found out and I reported it.

If you have any questions, let me know.

Thank You,

Kathy Gold
